### WAR DEPARTMENT PLANNING CHANGES IN U. S. UNIFORMS

Rumors which have persisted for some time that radical changes in the uniforms of the United States army officers and enlisted men are being planned by officers of the equipment division of the army war college, today were admitted to be true by men high in the War Department. .

The changes, it is said, will include the elimination of shoulder traps and other distinctly military opurtenances and the adoption of the English style roll collar in place of the "choker" collar now worn.

In the interest of economy the facg will be eliminated from the servcoats and the lining will run to the edge instead. No canvas will be used in the coats and the patch nockets will be done away with, a regular pocket with a flap covering taking its place.

General Pershing several months o recommended the adoption of unstiffened roll collar after the atyle of the British uniform, the ubstitution of spiral cloth putties for the canvas leggings now in use, and other changes in the uniform of merican soldiers. board of officers at the army war

She meets Von Nettelbeck, but he does not betray that she had been working incognita in America. Bhe receives a proposal of marriage from a fellow-student, but is spurned when he finds her one of the detasted Junkor class. She writes a successful play depicting the difference in the social position of German and American women. Then comes the war and Gleela goes into hospital work. The first suitation over the victories of the army is followed by a revulefon of feeling over usedless outrages. It becomes apparent that all be not as the war lords would.

this must be accomplished by the woman-hood of Germany. Gleela undertakes to take the leadership in the woman's revolt. The Socialists agree to help the women and Gisela travels about Germany or-guishing the revolt. Ehe meets Von Net-tolbeck again and is torn between love for him and devotion to the cause of revolution. Eather than betray the cause Gisela stabs her lover. Gisela and her aide fash the signal of the cause and the rev-olution of the German women begins.

This news Gisels heard at 10 o'clock when she returned to the wireless station on the Maximilianeum. The

Berlin news came from Mariette. In Munich the oldd King had been to many years about their admirable policy of Schrecklichkeit to forget the lesson in this fateful hour.

Moreover, the term "brainstorm" had long since found its way from the United States to Germany, and the women thought it singularly applicable to their former masters when in state of baffled rage.
